Did you know PSE&G residential energy efficiency programs can help you save money and energy while keeping you safe, healthy, and comfortable at home? We are partnering with PSE&G to inform customers about these important programs.

You may be eligible for the PSE&G [Home Weatherization Program for Income-Qualified Customers](#), which provides a free energy assessment to identify energy-saving opportunities throughout your home. Depending on your home's needs, you also may receive up to \$7,500 in energy efficiency, health, and safety upgrades at no cost!* Visit pseg.com/HomeWeatherization or call **1-855-846-2895** to schedule an appointment.

PSE&G has other home energy assessment options if the Home Weatherization Program is not right for you. Use the interactive tool at pseg.com/HomeAssessments to find the program that works best for your household. Residential customers can save on select high-efficiency products and reduce energy costs through:

- **Appliance Rebates:** Find deals on a variety of ENERGY STAR® certified appliances for your home, such as refrigerators, smart thermostats, and more.
- **HVAC Instant Rebates:** Save on qualifying ENERGY STAR certified heating and cooling equipment.

We hope you will take advantage of these PSE&G programs that can help you make smart energy choices and save money. For more information, visit pseg.com/HomeEnergy.

Note: This organization is not affiliated with PSE&G and cannot make eligibility determinations. Certain conditions may apply; visit pseg.com/HomeEnergy for program details.

* To be planned for a future visit. Determined on a home-specific basis.
